EXPERIENCE

KiwiCo
UX Designer
June 2021 - present

- Redesigned KiwiCo's mobile and desktop navigation & footers to achieve an estimated increase of 5% in revenue & completed order, 4% in product page views, and 23% in Blog page visits.

- Designed a [Sitewide Search](#) feature to consolidate browsing for six types of products & content, resulting in ~4x the number of searches taking place.

- Owning complex projects from research to handoff, conducting user tests, presenting to stakeholders, working with PMs to monitor A/B test performance, and collaborating with devs to implement designs.

Appian
UX Design Intern
June 2020 – Aug 2020

- Redesigned the internal feedback UI to elicit productive responses by conducting user interviews and usability tests with prototypes.

- Designed UI templates and guidelines to convey best practices to users.

NittanyAI Alliance
UI/UX Designer
March 2019 – May 2020

- Redesigned PSU's Transfer Credit Tool and collaborated with devs to redefine its functionality through wireframes, mockups, and HTML/CSS prototypes.

- Met with stakeholders in Advising and Admissions to gain insight on problem areas and propose solutions.

West Arete
UI/UX Design Intern
June 2019 – June 2020

- Fully redesigned [MIT's Living Wage Calculator](#) to appear more readable and reliable.

- Collaborated with PM to define a product based on broad-scope research through sketching, wireframes/mockups, and prototypes.

PROJECTS

[Re/Form](#) & [Synthesis](#)
Web Design & Dev Lead

- Led web design teams, teaching HTML/CSS and providing design feedback. Designed wireframes & mockups and built exhibition websites from scratch with HTML/CSS/JS.

- Coordinated with multiple teams to ensure cohesiveness.

Revu & LionPlanner
UI/UX Designer

- Collaborated with full stack devs on 9 month projects.

- Led all UX decisions, designed mockups, and wrote JSX & HTML/CSS.

- Wrote & presented pitches/demos and documentation to receive funding.

EDUCATION
